Accessibility Products

The First Name in Accessibility

Handi-Ramp has served people in the physically challenged community since 1958. As one of the first companies to recognize the unique problems which physically challenged people face in their daily routines, Handi-Ramp focuses on implementing solutions to meet individual needs. Our design team has expertise in meeting Americans with Disabilities Act (ADA) guidelines and our in-house manufacturing capabilities enable us to customize solutions to fit individual needs. Over 40 years of development and manufacturing experience underscored with exceptional customer service, makes Handi-Ramp a one-stop shopping place for all accessibility products. Call the Handi-Ramp experts at **800-876-RAMP (7267)** for more information and a free consultation.

Galvanized Ramps

Galvanized Steel Ramp Systems are excellent for permanent or semi-permanent applications. Using an open-grate channel system, ramp sections are completely assembled at the plant and shipped to the location. The result is a custom designed access system at an “off the shelf” price.

Aluminum Ramps

One person can assemble this lightweight and flexible modular ramp system. This ramp was designed to be assembled in just a few minutes. The ramp can be easily disassembled and stored in a garage when it is not needed. A perfect solution for meeting ADA requirements when a permanent ramp is not needed or desired.

Portable Ramps

Variety of aluminum and expanded metal ramps designed for quick and easy set-up and storage. Handi-Ramp has portable ramps up to 12 ft in length (the longest in the industry) with a standard width of 30 inches. All portable ramps have a capacity of 750 pounds and are easy to carry.

Van Ramps

Designed to be mounted in the side or back doors of vans and mini-vans. The standard width of 26 inches will accommodate most wheelchairs and vehicles, however custom widths are also available. These ramps can be installed in your van without structural modifications, which helps to maintain your resale value. These ramps can be installed with the optional **Quick-Mount System**, which will enable you to easily remove your van ramp so you can use your van for other purposes.

Threshold Ramps

Designed for single step or doorway applications. Made of aluminum, they are lightweight and durable. Many styles and custom sizes are available.

Concrete Surface Ramps

The look and feel of a poured concrete ramp with a flexibility of modular system. These tough, durable ramps are built using heavy duty steel tube frame and concrete panel surface. Simple installation and substantial savings!

This product line can be viewed at: <http://www.handiramp.com/wheel-chair-ramp.htm>

Wheelchair Lifts

Sometimes ramps are not an option at your residence or workplace due to space constrictions. No problem! Handi-Ramp has a solution. One of the most popular products, the Residential Wheelchair Lift, is sturdy enough to lift and lower the weight of 500 lbs. up to 72" inches. These wheelchair lifts are completely weatherized and easy to set-up and maintain.

Folding "Suitcase Style" Handi-Ramps

These innovative wheelchair ramps fold and carry like a suitcase. Choose from a Single-Fold or a Multifold model for easy set-up and storage. Ramps unfold to a 30 inch wide surface and are ideal for wheelchairs or scooters. The aluminum construction is lightweight and provides up to 600 lbs. of loading capacity. Ramps have high-traction anti-slip tape, which makes them safe to use even when wet.

Handi-TRAK Ramps

Sometimes tracks are all you need. The Handi-TRAK System has a full range of portable wheel and power chair tracks (or channel ramps) designed to be convenient and easy to use. The TRAK line includes the lightest, most portable wheelchair track products available. The 30" TRAKs weigh only 4½ lbs. per track. The tracks can be up to 10 ft long and accommodate weight of 600 lbs..

Boat Ramps

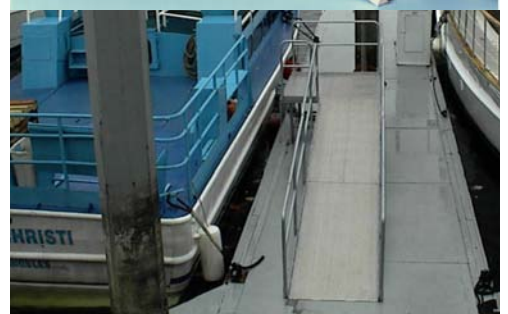

Handi-Ramp can design and build a boarding ramp for your unique boating needs. Handi-Ramp has created boarding ramps solutions for a wide variety of boats including private house boats, shore patrol boats and sight seeing cruise liners.

Handrails

Steel or high strength aluminum, the Handi-Ramp Handrail Systems meet all ADA standards, are maintenance free and are available for new or existing handrail requirements.

Custom Products

The Handi-Ramp design team has worked with many unusual site locations and customer needs. They will work with Handi-Ramp's manufacturing operation to create and build the right solution to meet even the most unique challenges and requirements.

What Our Customers Say About Us:

“The product we receive from Handi-Ramp is outstanding. Having used other ramp manufacturers in the past, the Handi-Ramp products definitely exceeded them in quality and craftsmanship.”

Amigo Mobility of Oak Brook Terrace, IL

“The Handi-Ramp products are priced very reasonably even for a low income family.”

B.C. of Winchester, VA

“We needed a low cost, lightweight, easy to use ramp and Handi-Ramp provided the perfect product for our needs.”

R.S. of Orland Park, IL

“The service at Handi-Ramp is great, they were very helpful. Handi-Ramp customized the size of the ramp for me and they even customized the lip for my porch. The quality of this company is uncommon these days.”

S.L. of Shelton, CT

“The Van Ramp was portable, lightweight and it works great for the side entrance of my Dodge Caravan.”

T.C. of Fostori, OH
